

FOSTER HOME FOR KITTEN NEEDED

Quadra Cat Rescue is looking for a temporary foster home for a young kitten that was found zipped up in a tote bag and abandoned at a residence on Quadra. The kitten was quite ill but has rallied in the last few days since being rescued and has received veterinary care. The kitten is on a course of antibiotics and will need to receive these medications daily.

We are looking to find a foster person who will be able to give oral antibiotic liquid and eye ointment twice a day, and wash around the kitten's eyes.

It would be ideal if the foster home was a cat-less household or one where pets' vaccines are up-to-date.

If you are able to provide temporary foster care for this sweet little kitten who has had an awfully rough start, please contact Quadra Cat Rescue at [285-CATS \(2287\)](tel:285-2287) or by email: quadracatrescue@yahoo.com. Thank you.
